

YARD AVAILABILITY

The yard availability in our home away from home, Subic Bay, took place in October and was the longest time we spent inport during our deployment. The major task was fitting a new set of props which meant drydocking. We put a new porch on the bridge, air conditioning in the ship's office, and gave the old girl one more coat of paint.

An omen?

"Take me to your drydock."

The Bibb being towed into a floating drydock.
