

LT R. A. Brunette, MMCP H. Morris Jr., EN3 G. B. Anderson, MMC S. C. Long

AUXILIARY GROUP

If ever there was to be an original Mr. Fixit it would have to be Steve Long. He and his helpers always get the job done. Results speak for themselves and the "A" Gang always get results. A doer, not a talker, Chief Long has long led the battle against "Demon Rum", disposing of all the opposition in a single night.

In Hong Kong, Andy was chief mechanic for anyone who had a boat running liberty parties ashore. To his shipmates he is known as the air conditioning expert without whose long hours of repair work, sleep for most of us would have been impossible. Herb worked so hard throughout all phases of the group's responsibility he made CPO.

Above all we'll never forget the words of "Papa Long"—"Who, Who, What's going on?"
