

HONOLULU, HAWAII—

23 JUNE - 6 JULY

Hawaii is the only one of the States which is completely tropical and for those who experienced Hawaii for the first time, it was quite a new dimension as far as liberty was concerned. The beautiful white sandy beaches, the dazzling flowers, the lush green foliage, big hotels, and beautiful brown skinned girls were all part of the languor typical of this gateway to the South Pacific.

"Expensive" was the word. Many of us spent a bundle and left with only an "Aloha" shirt and an empty wallet.
