

JUST FISHING JO !

"JUST FISHING"

The primary function of Operation Market Time is the prevention of food, supplies and weapons from being smuggled into the enemy by sea. Although the inspection of every junk and sampan in the coastal waters is a tedious process, the results over the past three years have been overwhelmingly successful. An armed boarding team from the MINNETONKA went aboard those vessels which looked suspicious and on several occasions, there was sufficient reason to take the vessel into the coastal authorities for detention.
