

## "COPENHAGEN" DENMARK

That afternoon liberty was granted and everybody left with his own destination in mind. Some wanted to take pictures of the King's Palace; others struck out to see the world famous "Tivoli Gardens;" some rented cars to see and take pictures of the surrounding countryside; while others went shopping for Scandinavian and Danish gifts and souvenirs for their loved ones back home. Those who went to see the Palace might have been fortunate enough to catch a glimpse of the King and Queen of Denmark for it is in this Palace that they take up their summer residence. Those who went to see the "Tivoli Gardens" found a beautiful amusement park and food which is typical only of Copenhagen. Those who chose the country for a means of sight-seeing had a chance to see some of the most beautiful countryside found anywhere in the world. For the "nightlifers" there were spots such as the "Eden Bar" and the "Dixie Club" at which you could find the typically beautiful Danish girls and, of course . . . the crew of the NORTHWIND. We departed on the 15th to begin what was to be a series of "firsts" for the cutter NORTHWIND and, for that matter, any American ship.

Piping Ambassador White aboard.
