

## OUR LADY OF COMPASSION HOME

While in Wellington, NZ a visit to Our Lady of Compassion home is always in order for Coast Guard icebreakers. This year HMC Laszczyk presented the sisters with a record breaking \$3000, unselfishly contributed by the crewmembers. The home was originally founded as a Maori Mission but has now expanded to include an orphanage, a school for children, a day care center, nursing home for the elderly, and a hospital. This latest contribution should do much to further the efforts of a very worthy cause. As proud as each crewmember is to have set the record for largest donation by an icebreaker, after one look at the children one can only hope it will be surpassed by the next ship.
