## YEOMEN

The Yeomen handle the ship's paper work. Although members of the Operations department, they are more often considered along with the storekeepers, as part of the mighty Ship's Office team. Led by fearless Chief J. D. Shuster, the boys can be found hammering away at their modern typewriters.

Bob Bell is the number two yeoman on the team. He handles the major jobs such as emergency leaves and accidents. He also acts as the liaison with the department heads who come to the office for information.

Tommy Cornwell is a new addition to the office, taking Chuck England's place. Chuck was transferred to the 12th District Office. Tom does most of the routine work, and in his off time practices his typing.
